

REACH – Declaration

IXXAT Automation GmbH as manufacturer of electronic products, thus – in the sense of REACH – is a so-called „downstream user“. The products we supply to you are solely non-chemical products (goods). Moreover and under normal and reasonably foreseeable circumstances of applications, the products supplied to you shall not release any substances. For that, IXXAT Automation GmbH are neither obligatory for registration nor for the creation of material safety data sheet.

Furthermore, we will immediately inform you in correspondence to REACH – Article 33 if any substance of content (as from a content of > 0.1 %) in our products will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

Independent of that fact, we are intensively pursuing the realisation of REACH on the part of our supplier. We do that in our own interest and in order to guarantee a high level of product safety for our customers.
