

Transfer of disposal of used electrical equipment to the customer

- § 1 In accordance with § 10 para. 2 clause 3 Electrical and electronic equipment act (ElektroG) in the version of 16 March 2005, IXXAT and the customer agree the following rules divergent to the ElektroG. These do not apply to used appliances from private households.
- § 2 All products of IXXAT that are subject to the ElektroG and to be disposed of in accordance with the ElektroG are to be marked in accordance with the ElektroG with the symbol of the crossed out garbage can.
- § 3 When products supplied by IXXAT are no longer used, the customer is obliged to dispose of these products at his/her own expense. The statutory regulations for disposal are to be complied with. IXXAT is exempt from the obligation to provide an acceptable way of taking the products back and to dispose of them.
- § 4 The customer releases IXXAT from all obligations of § 10 para. 2 ElektroG; in particular from the manufacturer's obligation to take products back and all claims of third parties in connection therewith.
- § 5 If products delivered were passed on to third parties, the customer is obliged to take back the delivered products at his/her expense when no longer used and to correctly dispose of them in accordance with the statutory regulations or to impose these obligations on the third parties.
- § 6 The statute of limitations of IXXAT's right to assumption/release by the customer begins to run at the earliest with the receipt of the written notification of the customer to IXXAT of the termination of use. However, in no event the limitation period shall be more than 30 (thirty) years, beginning with the termination of use, or less than two (2) years, beginning with termination of use.
- § 7 The contract and any amendments thereto must be made in writing.
- § 8 The place of jurisdiction in relation to merchants is the registered seat of IXXAT.
- § 9 German law applies. In the case of foreign customers, the UN law on sales incorporated in German law is excluded.
